

## **EXTRACT FOR W-9 UPDATES**

An extract is available for interfacing agencies. The extract lists W-9 updates to the vendor file. The extract is Vendor W9 Update Report (PCHR0996). The extract lists the vendors numbers for which OFM has changed the W-9 indicator to "Y"es on the vendor record. To obtain access to the extract, users must request RACF access. Users can request access by completing an "Access to ISSC Boulder Facility" form and entering "data set PMAIN.AD.J0996.W9OUT read access" at the bottom of the form. The form must be submitted to the Users Report Coordinator.

Agencies cannot use Vendor File Extract (DAFR7202) for this purpose because the W9 update does not exist on this extract.
